

TRUCHAS Workshop
June 21-24, 2004
Los Alamos, NM 87544, U. S. A

Agenda

Monday, June 21

8:30 A. M. Tutorial

A full day session will be held on Monday at the Los Alamos Research Park on implementation and operational issues with Truchas. The tutorial will familiarize first time Truchas users with the details of executing and modifying Truchas on Unix workstations and Multiprocessor systems. More advanced topics may be covered if the participants are prepared by earlier use of Truchas. The tutorial features hands on training and individual interaction with program staff. Only currently licensed collaborators are eligible to attend the tutorial session.

5:30 P. M Reception

All participants are invited to attend the welcoming reception at the Bradbury Science Museum.
